

SKULLPOT

SKULLPOT. WHERE SWISS DESIGN MEETS HIGHEST QUALITY.

Skullpot is a new, exclusive, rimless and worldwide unique toilet in the shape of a skull.

Whether privately for your home or for the toilet facilities in restaurants, bars as well as clubs, it is an eye-catcher! The ceramic bowl with the realistically designed skull shape, combined with the lid including automatic closure, create an exclusive design.

The skull toilets are available in white, black gloss, black matt and noble gold. For top quality, they are hardened in the oven over 1'000 degrees.

To complement the toilets, there is also a urinal in the same design. Interesting accessories such as printed toilet paper, bathroom wipes and cleaning kits are available in our online store.

Nothing stands in the way of remodeling or redesigning your bathroom or toilet facilities

Swiss Quality, Swiss Design
